

The City of Strawberry Point, Strawberry Point Aquatic Center Committee and Park and Recreation Board have been working diligently to come up with a practical design to enhance our current pool that meets the needs of the community, while maintaining a realistic budget.

The project has been divided into two phases which will allow maximum benefits for grant opportunities.

Phase I Zero Entry Splash Pool - Phase I will add a 30' x 48' zero entry splash pool with water features adjacent to our existing municipal pool facility. At this time, there is no place for young children to play at our current pool. The addition of a splash pool will support our youth with summer activities and help to improve our infrastructure making our city an attractive place to live. It will also be a welcoming attraction for visitors. Providing this important amenity will continue to help us keep our city a thriving community. The expected start date for this project is September 2017, with plans to open the new splash pool the summer of 2018. The total estimated cost of Phase I is \$300,000.

Phase II Bathhouse/Campbell Park Restrooms - Phase II will replace the existing bathhouse. The new bathhouse will also have public restrooms available for visitors to Campbell Park. Estimated cost for Phase II is \$220,000.

Several fundraisers have taken place and continue to be planned to support this important goal. Grant opportunities have been researched and are being written at this time. We are seeking donations and pledges from our community, our businesses, organizations, families and individuals. Donors providing \$5,000 or more will be recognized for their generosity. Checks should be made out to Strawberry Point Aquatic Center. Any and all donations are greatly appreciated and are tax deductible.

Thank you for your time to learn more about the Strawberry Point Aquatic Center project.
