

If you had water damage from rains this Summer --

A little good news for people who had water damage. Clayton County received a Presidential Declaration for the storm damage that occurred this past summer. If you live in Strawberry Point and received water damage with the storms in July, please call 800-621-3362 or visit <http://www.fema.gov> to register for Federal assistance. This is in addition to the public assistance offered through the State of Iowa and Clayton County. If there are questions, please call City Hall at 563-933-4482. Questions about qualifying flood insurance should also be directed to City Hall.
