Strawberry Point, IA. 52076

Dear Alan,

Listed below are maintenance recommendations for your 3516 Caterpillar generators. **The price below is per generator.**

<u>Level</u>	<u>Description</u>	<u>Interval</u>	<u>Cost</u>
1	63-Point engine/generator inspection	12-Month	\$
2	63-Point inspection with oil and filter change	12-Month	\$
3	Cooling system service	36-Month	\$
4	Megohmometer winding test	12-Month	\$2,291.00
5	Load bank test (2-hour) High voltage.	12-Month	\$
6	Valve adjustment and inspection	36-Month	\$2,255.00
9	Battery replacement/ Starting system inspection	36-Month	\$
11	Transfer switch inspection/thermal image	12-Month	\$
31	Comprehensive fuel analysis	12 Month	\$

**The pricing above does not include any applicable taxes, shop materials or environmental fees. Pricing above reflects services performed during normal business hours, Monday-Friday.

Ziegler Power Systems recommends that the engines be run weekly with building load being transferred at least once every month.

The maintenance program suggested in conjunction with testing and running the generator routinely will keep costs down and increase the reliability of the generator. **Ziegler appreciates your business.**

Thank you Alan and please call me at your convenience so that I can answer any questions you may have.

Sincerely,

Bob J. Mullenbach
